SUMMARY

Final-year B.Tech IT student with hands-on experience in data analytics, full-stack development, and AI applications. Completed internships at Infosys Springboard and CodeAlpha, and built production-style projects using Python, SQL, React, and Power BI. Certified in Data Analytics by Microsoft, TCS, and Deloitte.

EXPERIENCE

Software Development Intern | Infosys Springboard, Remote | Sep – Dec 2025

[Github](#)

- Built a Study Group Finder platform using Spring Boot and MySQL, supporting 200+ students to find and join groups by subject and availability.
- Designed relational schemas and optimized SQL queries, reducing query response time by ~40%.
- Implemented role-based access control (RBAC) for student and admin permissions in a 6-member team.
- Tech Stack: React, SpringBoot, MySQL, Rest API, WebSocket, JWT authentication, Cloudinary

Data Analytics Intern | CodeAlpha, Remote | Jan 2026

[Github](#)

- Designed an interactive Power BI dashboard with 12 KPI cards, DAX measures, and slicers to analyse Financial and HR metrics across 4 departments.
- Reduced manual report generation time by 60% through automated data refresh pipelines in Power BI Service.
- Received Internship Completion Certificate and Letter of Completion (LOR) upon successful project delivery.

PROJECTS

SmartHire AI – Multi-Agent Recruitment Intelligence Platform

[Github](#)

- Developed a full-stack AI platform for campus placements with Smart Resume Analyzer that performs ATS scoring, skill gap detection, and provides improvement suggestions using NLP.
- Built AI Mock Interview System with real-time technical & HR evaluation and feedback.
- Implemented Live Interview module supporting AI-powered and manual interview modes with real-time monitoring via Socket.io.
- Tech Stack: React.js, Node.js, FastAPI, Python, Scikit-learn, spaCy, MongoDB, Socket.io, Docker & AWS

Web-Based Learning Behaviour Analytics System | React, Flask, MySQL, Pandas, Chart.js | [Live Demo](#)

[Github](#)

- Developed a full-stack web application to track student quiz scores, time-on-task, and engagement across multiple course modules for 500+ student records.
- Built a Python and Pandas data pipeline with MySQL to analyse behavioural patterns and identify 3 recurring difficulty topics to guide curriculum improvements.
- Designed an interactive React dashboard with Chart.js filters for date and subject, visualising weekly trends and individual student progress for educators.

AI-Powered PDF Chatbot | React, FastAPI, RAG | [Live Demo](#)

[Github](#)

- Built a full-stack AI chatbot where users upload PDF documents and ask natural language questions, receiving context-aware answers in under 2 seconds.
- Implemented a RAG pipeline using FastAPI to extract relevant text chunks from uploaded PDFs and pass them to an AI model for accurate response generation.
- Developed a React frontend with real-time response streaming, tested across 10+ diverse documents including research papers and technical manuals.

EDUCATION

B.Tech in Information Technology

Expected May 2027

V.S.B Engineering College, Tamil Nadu

CERTIFICATIONS

- Data Analytics — Microsoft, TCS, Deloitte, LinkedIn Learning
- Java Programming — Infosys Springboard, NPTEL

SKILLS

Analytics & BI: Excel, Power BI, SQL

Programming: Java, Python, HTML, CSS

Framework: React

Tools: Git, GitHub, VS Code

Soft Skills: Problem Solving, Team Collaboration, Data Storytelling

Languages: Tamil, English

ACHIEVEMENTS

Hackathon: Finalist – HACKSAGON 2026, National Level Hackathon at ABV-IIITM Gwalior (IEEE MP Section), Apr 2026 (Team Debug Thugs, top finalist among 2100+ teams)
